# PROTECT YOUR BUSINESS WITH INSITE360

---

Wetstock Management Solutions from Gilbarco Veeder-Root

Building Better Business

# Why Insite360?

Insite360 protects your most valuable asset, your wetstock, and keeps your business running at optimum levels by maximising the uptime of your forecourt through the prevention of run-outs and the safeguarding of your fuel.

**7%\***

the alarms that required on-site investigation. The remaining were intelligently dealt with by Gilbarco Veeder-Root wetstock consultants remotely

**13,831 litres\***

improvement in variance due to accurate tank calibration (per site)

**13,200 litres\***

the fuel you could be giving away annually through meter variance for an average service station

**-0.5%\***

the fuel volume shrinkage for every 4°C drop in storage temperature for petrol (6°C for diesel)

\*Statistical Information

7%: Data based on 1,500 alarms received in one week in October 2013 across 2,000 sites

13,831 litres: Actual tank calibration improvement on 880 tanks in 2013

13,200 litres: Calculated based on the meter drift improvement on 51 pumps in 2013

-0.5%: Physical property exhibited by Petrol/Diesel based on the thermal co-efficient

# Enhance profitability, reduce risk

Offering unrivalled levels of performance, flexibility, uptime and enhanced security, Insite360 maximises business profitability by identifying and reducing any variance in your network, delivering assurance to support business growth.

Complete solution or tailored to suit your needs

## Control your wetstock

### Monitor Dispenser Meters

- Monitor and reduce over dispensing
- Ensure compliance by monitoring under dispensing

### Ensure Accurate Delivery

- Receive short delivery notifications
- Effectively manage reconciliation

### Theft Detection

- Compare changes in tank fuel volumes with POS transactions
- Trend and analyse all wetstock delivery chain data

### Proactive Service

- Dedicated account managers provide a tailored service to meet your needs

## Prevent leaks and reduce environmental risk

### Rapid Leak Detection

- Detect leaks with real-time fuel variance and leak test data
- Statistical Inventory Reconciliation
- Avoid costly clean-ups, third party damage claims and fines

### Alarm Monitoring and Management

- Real-time notification from environmental and other alarms
- Individual fuel dispenser analysis

## Optimise your operations

### Logistics

- Collect real-time tank inventory data on demand
- Plan deliveries for optimal site inventory
- Delivery verification to gain visibility of an audit trail across the network

### Preventative Maintenance

- Preventative maintenance and remote diagnostics increase uptime

# What is Insite360?

Insite360 is a unique next generation fuel inventory management tool from Gilbarco Veeder-Root. It provides customers with a transparent 360° view of fuel inventory across all sites in real time through a simple to use remote service.

## How it works

### Expert Analysis

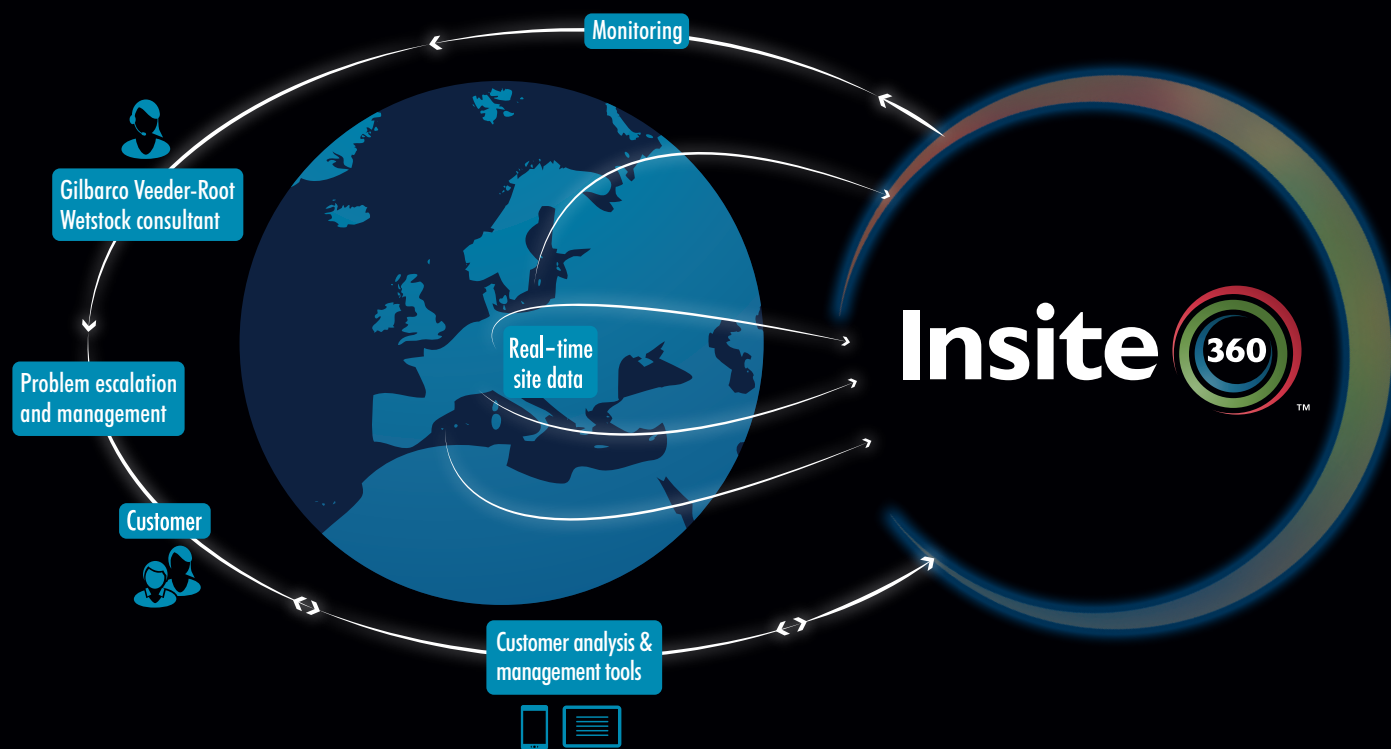

Insite360 provides you with a team of expert consultants who analyse, manage and optimise the performance of your wetstock:

- > Real-time monitoring of your site all day, every day
- > Expert consultants review site data, identify loss, liaise with regulatory authorities, provide incident management and ensure regulatory compliance

### Insite360 Connectivity

Insite360 infrastructure provides scalable architecture for local, regional and global application:

- > Fixed or wireless communications provide flexibility
- > Flexible solution that can be tailored to meet your specific business needs
- > Add sites or services as your business needs change

### Customised Reporting

Insite360 provides a range of tools for you to analyse and manage your wetstock performance:

- > Access any site from any location, including from mobile devices such as smartphones and tablets
- > Run standard or customer defined reports

### Forecourt Versatility

Insite360 allows a range of data collection methods from your forecourt to maximise flexibility and investment in your existing infrastructure:

- > Directly from your ATG
- > From POS, BOS or Head Office Systems

# Why Gilbarco Veeder-Root?
